

Introduction

The assignment is targeted to test the skills of the candidate in Advanced concepts of JS

Objective

This assignment will help master the concepts of HTML, JS.

Pre-requisites

Knowledge of JavaScript and HTML

Associated Data Files

Not applicable.

Problem Statement

This assignment will be independent and will test the concepts of advanced JavaScript.

- 1) Create an IIFE which alerts "Hello World!"
- 2) Write an anonymous function which take email address as parameter and returns true/false after validating the input parameter.
- 3) Write an IIFE in which we have to validate the input provided from a form. The form consists of name, email, phone, address in which name, email and phone number should not be left blank. Also validate that the given email is a valid email id using JavaScript.
